Re: Account Number _____

Dear: _____:

We have completed the review of your account to determine your Budget Payment Plan amount as you requested. Based on this review, your monthly budget payment amount will be \$_____.

This agreed upon budget payment amount should be paid on or before the due date of the bill.

Based on your usage pattern for the past twelve (12) months, we estimate that your total bill for the next twelve (12) months will be \$_____. This amount has been divided by twelve to arrive at your monthly budget payment amount for the Plan Year.

Should changing conditions require a change of your monthly budget payment during the Plan Year, you will be advised of the new payment amount prior to the first monthly billing period it becomes effective.

You will continue to receive a regular bill each month during the coming year. This bill will show your actual consumption and the regular billing amount for the current month. The balance in your account, before the current month's usage and the current month budget payment amount, will be shown either as a credit, if the accumulated payments are greater than the regular billing, or as an arrear, if the accumulated payments are less than the regular billing amounts.

Any difference between the amount of your actual bills for the period _____ through _____, and the amount that you have paid while on the Plan, will be due and payable by the due date of your _____ billing. Credit balances will be considered in establishing the budget amount for the next Plan Year.

Monthly budget payment amounts are due as of the due date each month just as your regular electric bill has been. Failure to make your payments as due could result in termination of the Plan during the year. If this becomes necessary, any balance due to the Cooperative will be due and payable at that time. Balances not so paid will subject you to the normal termination procedures for unpaid electric balances.

I (We) accept the Budget Payment Plan as indicated above.
